GLOBAL ACCESSIBILITY REPORTING INITIATIVE (GARI)
MOBILE HANDSET/DEVICE REPORT

Manufacturer/Importer:	Alcatel Mobile Phones
Product Brand(s):	Alcatel OneTouch
Models:	One Touch TAB 7HD
Phone is available in the following regions:	Europe
Phone Shape:	Tablet
Website and/or contact details for the product	http://www.alcatelonetouch.com
Date Completed:	May-13-2013
Completed By:	Elena Hurjui

FEATURE	DESCRIPTION	DETAIL
HARDWARE INFORMATION		
Device weight	Weight including battery.	350 Grams
Tablet Headset - plug connected	You can plug in a headset containing headphones and a microphone. This allows you to listen to music or talk without holding the device. This can be useful if you have trouble holding a device.	Yes
Headset - plug type	The type of plug a headset will need to have so that it can be connected to the device.	Information Not Available
Touch Screen	Does the device have a touch screen?	Yes
Touch Screen - Heat Activated	If the device has a touchscreen, is it capacitive (sometimes referred to as heat activated	No
Anti-slip features	Has a non-slip coating or ridges to prevent it slipping out of your hand	No
Backlight for Display	The display lights up to make it easier to read in the dark	Yes
Display Characteristics - Main Display Size	Size of the main display	7' inches
Display Characteristics - Main Display Resolution	The number of dots (called pixels) used to display text and images on the main display. More dots means more detail.	1024 x 600 pixels
Display Characteristics - Screen Flicker	The main display does not flicker at a rate that could cause problems for people with photo-epilepsy (between 2 Hz and 60 Hz)	No
Internet Capability	You can use the device to browse websites and use other internet-based services.	Yes
Supports ability to install third party applications or apps.	You can install third party applications for example from an approved application store.	Yes
External keyboard support	You can connect an external keyboard to the device	No
Stylus support	You can use a stylus or other pen-like device	No
Product Size	Dimensions of the product (Width x Height x Depth)	192.8, 121,9.5
MOBILITY/DEXTERITY FEATURES		
Predictive Text Input	Helps you write messages more quickly by predicting words from the first few letters you type.	Yes
Device Coupling - Cable	Allows other customised devices to be connected to this device by using a cable (an electrical wire)	Yes
Device Coupling - Bluetooth/WLAN	Allows customised accesories to work with the device. Accessories can be connected to the device by using Bluetooth/wireless LAN (radio signals which travel through the air and may also be able to pass through walls or other solid objects)	Yes
Device Coupling - Other	Allows customised accessories to work with the device. Accessories can be connected to the device by using other connections then those described above (please describe):	NA
Flat Back for Table Top Operation	Has a flat back, so it can be used while it is lying on a table	Yes
Hand Movement	Some controls require you to pinch or twist them with your fingers, or rotate your wrist	Yes
Voice recognition for accessing features	Allows you to activate features by speaking commands into the device, reducing the need to use the keypad	No
VISION FEATURES		
Key Feedback - Audible	When you press a key it makes a sound, so you know it has been pressed	Yes
Audible Cues - Battery	Makes sounds to tell you when the battery is running out or when it is recharging.	Yes
Audible Cues - Power	Makes a sound when you press the power on/off button, so you know it's been pressed.	Yes
Audible Cues - Volume	Is there a audible cue to indicate a change in the volume level?	Yes

Adjustable Font - Style	You can change the font (typeface) used for the text on the display, which may make it easier to read	Yes
Adjustable Font - Size	You can make the text on the display larger or smaller to make it easier to read	Yes
Personalized Shortcuts	You can assign a particular feature to a single key or a short key sequence	No
Voiced Menus	Speaks the menu options, allowing you to access functions even if you cannot read the display	No
Display Characteristics - Adjustable Contrast Control	You can adjust the contrast of the display to make text and symbols easier to see against the background	Yes
Display Characteristics - Adjustable Brightness Control	You can adjust the brightness of the display to make it easier to read	Yes
Display Characteristics - Colour Differention.	The information presented on the display does not rely on colour perception for understanding (e.g. you do not have to be able to distinguish red symbols from green symbols)	No
Display Characteristics - Symbols/Icons	Menus can be displayed using symbols or pictures in a grid layout. This can make them easier for some people to understand or remember	Yes
High contrast mode	The device comes with at least one high contrast mode	Yes
Support accessibility APIs	API's allow accessibility software programs to communicate with the device (although there may be some limits).	Yes
Web browser Zoom	You can magnify web content when using the internet browser	Yes

HEARING/SPEECH IMPAIRMENT FEATURES

Vibrating alert	The device can be set to vibrate when it receives a message or when it gives a warning alert	Yes
Visual Alerts - Power	When you press the power on/off button a visual alert is shown (e.g. a light), so you know it's been pressed.	Yes
Visual Alerts - Battery	Displays a visual alert to tell you when the battery is running out or when it is recharging.	Yes
Visual Alerts - Other	Whether there are other visual alerts /text displays that are not mentioned above.	N/A

Messaging Options - Predictive Text	Helps you write text messages more quickly by predicting words from the first few letters you type.	Yes
Key Feedback - Displayed	When you press the keys a larger version of it is displayed on the screen so you can check that it is correct.	Yes
Visual Alerts - Electronic Message	When a text, e-mail or IM comes in, it displays a visual alert to indicate it has been received	Yes
Two-way video communications – using mobile networks	Allows you to make video calls in which you can see the other person and they can see you using your mobile network	Yes
Two-way video communications – using wireless LAN networks	Allows you to make video calls in which you can see the other person and they can see you using your wireless LAN network	Yes
Adjustable Volume Control	You can adjust the volume to make it louder or quieter.	Yes
Front facing camera	Allows the front facing camera to be used in signing or two-way video conferencing.	N/A
Supports Closed Captioning for Web Video	Device will show closed captioning that is included in a video	Yes
Adjustable Vibrating Alerts	Allows user to customize vibration settings for various notifications.	Yes

COGNITION FEATURES

Time-Independent Responses	When the device displays an alert or a question that requires you to give an answer, e.g. by clicking a "Yes" or "No" button or by typing in your PIN number, it will wait for your response. This can be helpful for people who find it difficult to decide what to answer or to enter the answer quickly.	Yes
Time-Dependent Response Adjustment	When the device displays an alert or a question that requires you to give an answer, e.g. by clicking a "Yes" or "No" button or by typing in your PIN number, you may need to respond within a certain time. But you can adjust how long that allowed response time is. This can be helpful for people who find it difficult to decide what to answer or to enter the answer quickly.	Yes
Simple Reminders	All text alerts and other reminders that are displayed on the screen use simple, easy to understand language.	Yes

Assistance Instructions	When you need to provide input (e.g. when setting up the device or when it asks you a question), extra helpful instructions are provided, explaining what you need to do.	N/A
Adjustable Scroll Speed	With long messages that take up more than a single screen, you have to scroll down to read the whole message. You can adjust the speed of the scrolling, making it easier to read for some people.	Yes
Photo Associated Contact List	You can add photos of people next to their numbers in your contact list (a personal 'contact book' you create in the device).	Yes
Simple Instructions	Instructions and messages that are displayed on screen use simple language.	Yes
GPS capability	The device has Global Positioning System (GPS) capability.	Yes
Simplify display	Allows you to disable or conceal unneeded features/programs or icons.	Yes
Voice notes	Allows you to record, save and play back a short voice reminder.	Yes

ADDITIONAL FEATURES

Alternative format User Manual	The User Manual is available in alternative formats upon request.	Yes
Any Other Additional Features	Additional features that may benefit people with disabilities (i.e the possibility to connect additional accessories such as external keyboard or devices for synthesizing voice)	NA

OPTIONAL ACCESSORIES

Related accessories that may also benefit people with disabilities.		N/A
